## ► Advantages of Janyu Tech robots over international robots

Extreme ease of installation, operation –  
modular design and an intuitive user experience  
for an unskilled workforce

In-house design and development team lead by  
IIT Technocrats for any kind of customisation

Intelligent and safe

More Affordable Than International Competitors

Service & Maintenance: One-stop-solution  
as an OEM

Specialist in Human Enabling Collaborative Robots  
for Hostile Work Environments
