

Janyu Technologies Pvt. Ltd. is engaged in design, development, manufacture, supply, installation and commissioning of Robotic solutions & Industrial Automation systems.

Our Automation solutions include

- Complete Line Automation
- Material Handling
- Smart Conveyors
- Gantry Systems
- Warehouse Automated Storage solutions
- Robotic Arrangement
- AMR/AGV
- Special Purpose Machines (SPM)
- Hydraulic systems

The future of Automation

About us

VISION

- To be most preferred industrial automation solution provider by 2025
- Reliable & Trustworthy to meet our end user requirements.
- Extend Co-operation & Service support to effective teamwork.

MISSION

- Janyutech will be trusted brand in the Industrial Automation segment by:
- Understanding customers application requirements & provide effective solutions to satisfy the end needs
- Build strong responsible and accountable team within the organization
- Ensure manufacture & supply of feasible & effective solutions by incorporating value added features & superior elements in the system.
- Ensure satisfactory compliance in execution & support on time

GOALS

- To be among the top three solution providers of automation solution suppliers in India and abroad.
- Build and nurture congenial working in environment with our stakeholders & also with our customers & business partners for satisfactory wellbeing.
- Provide continual training to employees and customers to develop their competence.
- To serve the various industrial sectors communities for robotic solution Industrial automation solution to be best extend possible.

What we offer

- Robotic Services
- Engineering Services
- Robotic Training
- Industrial Cleaning Services

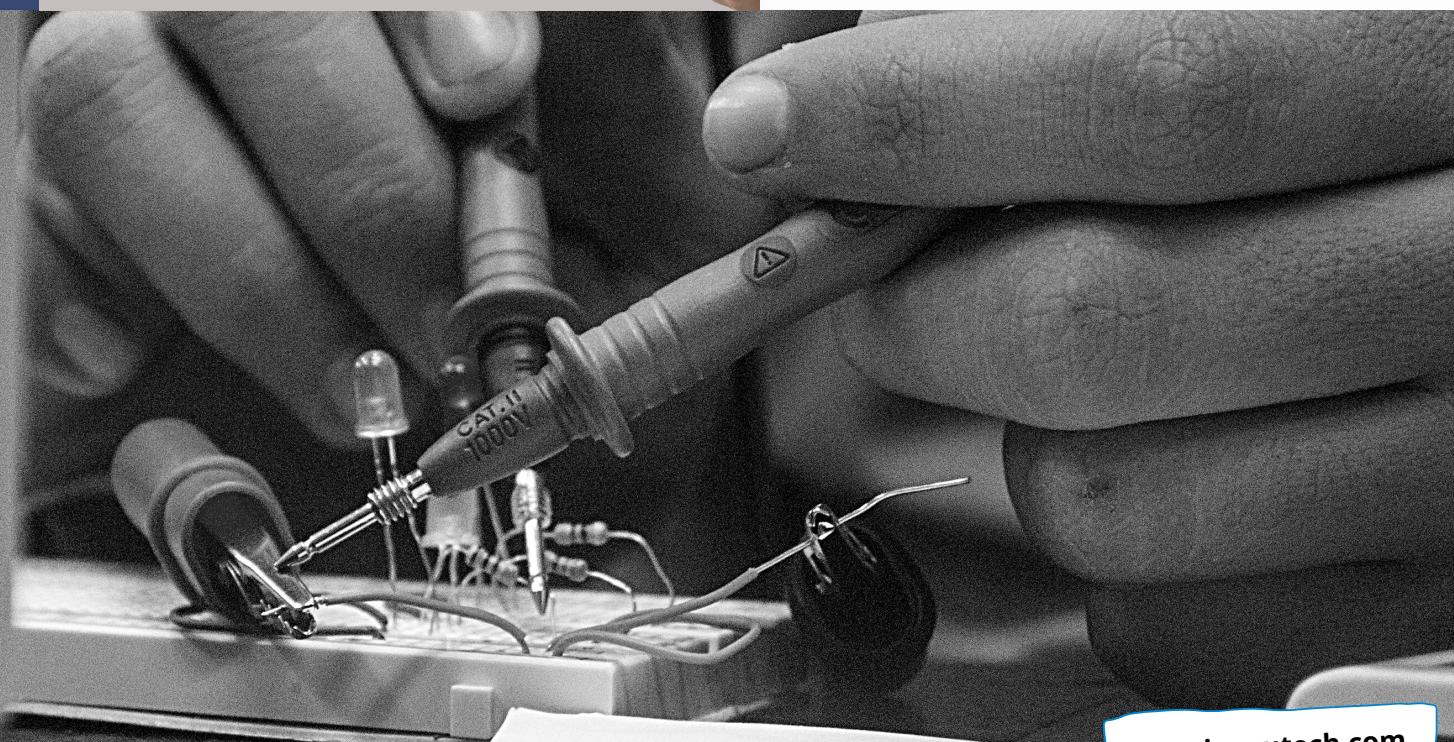

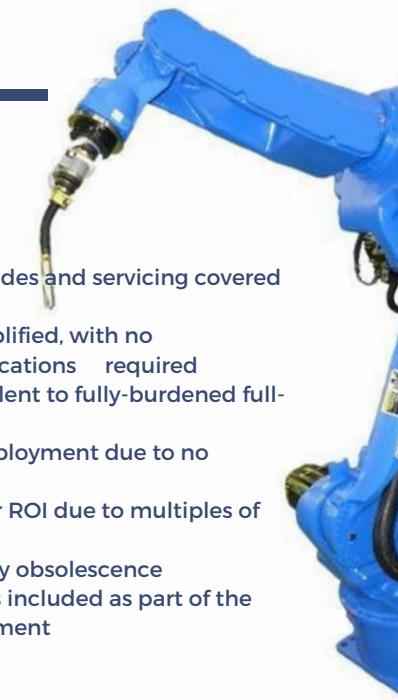

Services

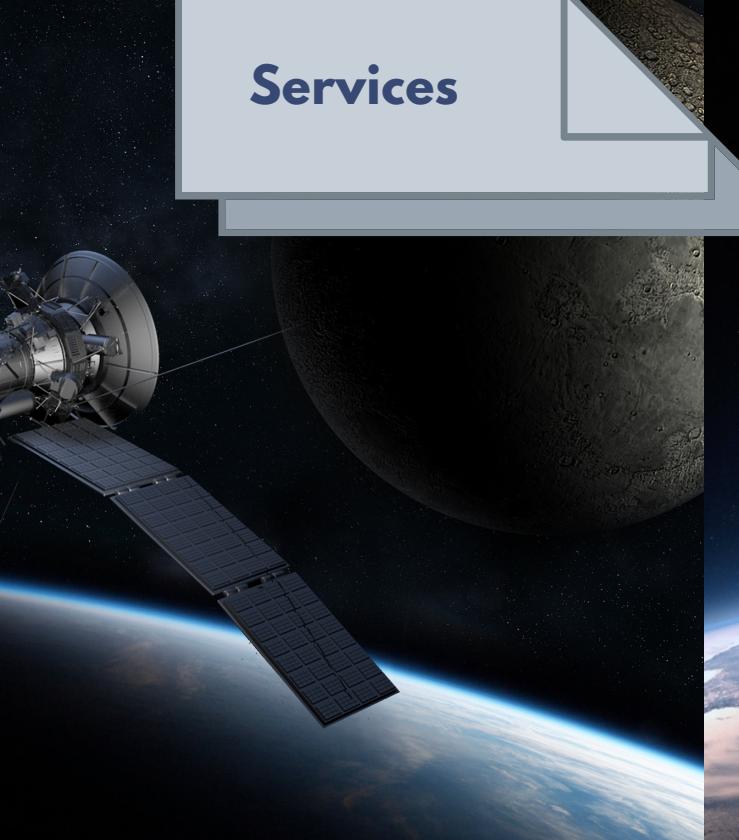

RAAS - Robotics as a service

BENEFITS OF RAAS

- Maintenance, upgrades and servicing covered by JanYu
- Implementation simplified, with no infrastructure modifications required
- Cost targeted equivalent to fully-burdened full-time employee
- Lowers barriers to deployment due to no CapEx outlay
- Immediate customer ROI due to multiples of productivity
- Eliminates technology obsolescence risk. Software updates included as part of the overall service agreement

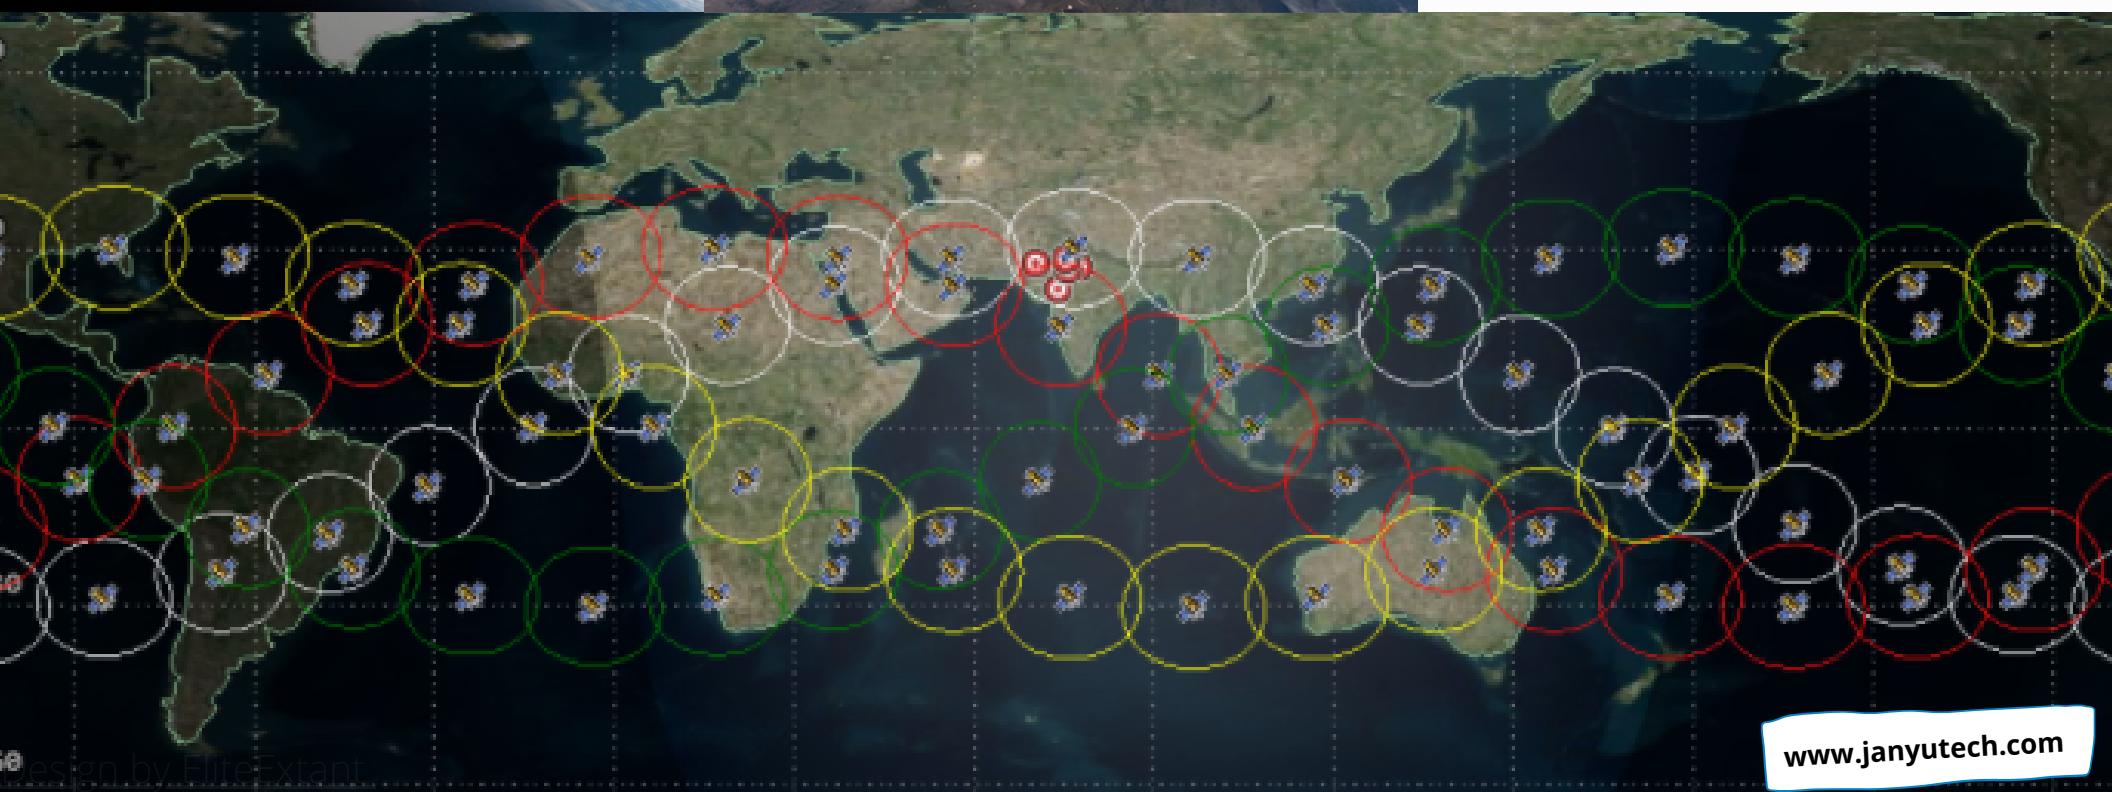

Services

Private LTE Network

- Low Earth Orbit
- Satellite Constellation
- Design for Broad-Band Services

Satellite & Telecommunication

5G / LTE

- Emerging 5G networks feature lower latency, higher capacity, and increased bandwidth compared to 4G. These network improvements will have far-reaching impacts on how people live, work, and play all over the world.

Certificate

This is to Certify that

JANYU TECHNOLOGIES PRIVATE LIMITED

Gala No. 17, Building No. 6, Rajprabha Landmark Industrial Estate, Behind KTM Showrom, Palghar, Maharashtra - 401208, India

has been found in Compliance with requirements of
Good Manufacturing Practice

GMP

for the following scope:

Manufacture, Assembly & Integration of Electro-Mechanical systems, Remotely Operated Vehicles, Robots, Electricity Distribution and Control Apparatus, Protection Circuits, Control Systems, Controllers and Apparatus.

Certificate No. : GMP/017368/0720

Original Certificate Date: 15-July-2020

Issue Date : 15-July-2020

Expiry Date : 14-July-2023
